EDUCATION

Qualification	College/School	Year	CGPA
B. Tech	Jaypee University of Information Technology	2015-19	8.0
12 th Board	Model Institute of Education Devdhar	2014-15	87.6%
10 th Board	Model Institute of Education Devdhar	2012-13	87.8%

TECHNICAL SKILLS

Core Java	★★★★★
Python	★★★★★
Data Structures	★★★★☆
Angular7	★★★★☆
SQL	★★★★☆
C++	★★★★☆
Node.js	★★★★☆
MongoDB	★★★★☆
Android	★★★☆☆
ML	★★★★☆

EXPERIENCE (7+ Months)

Cognizant Technology Solutions, Bangalore— PAT

July 2019 - PRESENT

- Working at Client Location as a Backend Developer.
- **Tech Stack:** C++, Python, Angular, Shell Scripting

Cognizant Technology Solutions, Bangalore— Intern

February 2019 - May 2019

- Trained with Full Stack Technologies that help to create a final year project.
- **Tech Stack:** Angular7, Java, Python, Flask

PROJECTS

- Log File Analyzer — It is built to analyze unstructured log files and convert them into some structured form and perform some actions on it.
 - ◆ **Tech Stack:** Angular7, Flask(Python)
- Predicting Diabetes Patient Readmission — The final outcome is to build a machine learning classifier model to predict diabetes patients with a high risk of readmission.
 - ◆ **Tech Stack:** Anaconda (Python)
- Codez App —It is an Android app written in Kotlin and Java Language which is for CSE/IT Students to help them to learn Coding without wasting time searching or traversing from one site to another site.
 - ◆ **Tech Stack:** Kotlin, Java

TRAINING / CERTIFICATIONS

Data Science Specialization
(February - PRESENT)

Machine Learning using
Python (May - July 2018)

Android Development using
Java (May - June 2017)

AWARDS

Rs. 10,000 and Laptop for
scoring 64th position in 10th.

Got Laptop and offered
Rs.80,000/year for higher
Education after 12th.

WORKSHOPS

Attended two days workshop
on Networking and Security
organized by RCPL.

Attended 10 days Bootcamp on
Machine Learning and Python.
